

A close-up, high-contrast photograph of a woven wood-look vinyl tile (LVT) floor. The tiles are arranged in a complex, interlocking woven pattern, creating a textured, three-dimensional effect. The lighting is dramatic, highlighting the grain and texture of the wood-like material against a dark background.

 EF Contract™

We're EF Contract.

Part of the fastest-growing, most progressive family of flooring companies, we stand for confidence in quality, relentless service and doing right by all.

Our products are inspired by you: offering the carpet and hard-surface flooring that you want and need, that you've been seeking but unable to find, until now.

Every collection, pattern and colorway are created with best in class performance and in pursuit of design that is simply beautiful.

LVT has transformed hard surface vinyl flooring in the past decade, due to its easy installation and incredible durability. At EF Contract, we build on these performance characteristics with simple, sophisticated beauty.

Bringing together natural looks with technology-driven quality, to create a flooring that will last for years in your education, retail, healthcare, hospitality and even corporate installations.

Wood

Our LVT brings the beauty of a wood floor to commercial spaces. Our Wood patterns were developed to highlight grain patterning and ensure perfect coordination during design and installation.

Sustainably Sound

EF Contract believes true sustainability requires full attention to the potential impacts of every aspect of our business. In accordance with our mission of waste reduction, all EF Contract LVT products are 100% recyclable with up to 25% post-industrial recycled content - a true, safe and reliable stream derived from the manufacturing process.

You can rest assured that health is also a top priority and all EF Contract LVT products are FloorScore Certified.

Due to the unique visual characteristics of modular carpets, pattern repeats and pattern run-off seams may appear more noticeable than in broadloom carpets. Such visual characteristics do not constitute a manufacturing defect, and as such, should be considered when selecting modular carpet and its installation. These photographs are representations of the installation for this modular product. Your modular installation may look different than these photos depending upon individual tile placement, lighting, and overall space layout, including furnishings. Final tile placement and the resulting visual is thus the customer's, and not EF Contract's responsibility.
