MODULAR CARPET

## Alfresco + Flourish Weave

EF Contract's newest collection continues the celebration of hand crafting found in our Simple Weave carpet with two new patterns, Alfresco and Flourish Weave. These styles capture the look of finely woven textured goods whose nature inspired motifs reveal form and contour.

Alfresco is an organic abstract that plays with the light and shadow found in the layered view when looking up into a lush tree canopy. Its minimalist styling and rich texture shares a common thread with the more tailored Simple Weave and together will provide a subtle, understated backdrop for interiors.

With a nod to botanical tapestries, Flourish Weave is a contemporary silhouette of scrolling vines. Its large scale and defined lines provide a wonderful visual contrast to Alfresco and Simple Weave, while its shared colorways harmonize for a beautifully blended flooring design.

Due to the unique visual characteristics of modular carpets, pattern repeats and pattern run-off seams may appear more noticeable than in broadloom carpets. Such visual characteristics do not constitute a manufacturing defect, and as such, should be considered when selecting modular carpet and its installation. These photographs are representations of the installation for this modular product. Your modular installation may look different than these photos depending upon individual tile placement, lighting and overall space layout, including furnishings. Final tile placement and the resulting visual is thus the customer’s, and not EF Contract’s, responsibility.
