Endless Forest

Imagine a floor that tells its own story.

Each plank carries subtle echoes of the forest, with tones that shift like filtered sunlight through leaves — from warm amber highlights to soft, nuanced neutrals. The patterns create a quiet rhythm underfoot, a considered interplay of texture and tone.

More than a surface, this collection serves as a foundation for design — where natural warmth meets contemporary artistry. It grounds the space while drawing the eye, inviting a moment of pause and a closer look.

PRODUCT DETAILS

EF Contract's domestically made luxury vinyl tile uses digital print technology to create high-resolution designs directly on a high-density rigid core. The creative process begins with scanning unique wood species, which allows for unlimited design possibilities and minimal plank repeat for a more authentic wood look.

Compared to traditional film products, digital print technology produces design with 5x more color clarity. Using digital emboss technology, a structure is built up on the surface of the board, creating an exact texture match to the design.

Evertuff Clearcoat® provides built-in protection using a UV coating in place of a traditional wear layer, leading to enhanced abrasion properties.

Technologies

PUREGRAIN

— HIGH-DEF

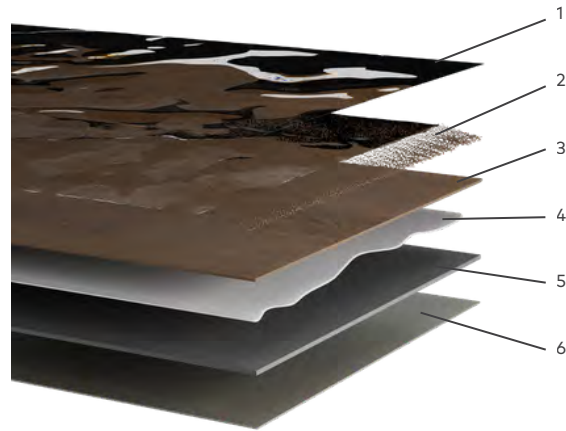

With high-resolution digital printing, the possibilities are endless! The increased dots per inch (DPI) leads us to our high-def color clarity allowing us to create industry-disrupting products.

Evertuff Clearcoat Technology®

Our Evertuff Clearcoat® provides ultimate protection against everyday scuffs and scratches.

One2Click® locking system (angle/angle) for superior joint strength

- 1 Protective top coat and matte finish for a low gloss visual that hides surface imperfections
- 2 Lacquer layer and texture build up for unhindered color clarity and realistic wood texture (EIR)
- 3 Digitally printed decor allowing for high resolution image and enhanced plank repeats
- 4 Primer base allows for a perfect canvas to start the printing process
- 5 High density rigid core for unmatched indentation properties perfect for high traffic areas
- 6 Attached pad for ease of installation and enhanced sound absorption

Feature & Benefits

- Proudly made in the USA
- Realistic texture
- Waterproof
- Enhanced bevel
- Noise reduction
- Fast installation
- Installs over most existing floor
- Superior scratch resistance
- High indentation resistance
- High dimensional stability

Due to the unique visual characteristics of modular carpets, pattern repeats and pattern run-off seams may appear more noticeable than in broadloom carpets. Such visual characteristics do not constitute a manufacturing defect, and as such, should be considered when selecting modular carpet and its installation.

These photographs are representations of the installation for this modular product. Your modular installation may look different than these photos depending upon individual tile placement, lighting, and overall space layout, including furnishings. Final tile placement and the resulting visual is thus the customer's, and not EF Contract's responsibility.
