MODULAR CARPET

QUICKSHIP OPTIONS

## Fragments

Understated and artful, Fragments is inspired by pottery that uses crackle glaze as a decorative feature. A mid-to-large geometric pattern accented with a slight feathering texture that creates subtle shadows across the floor.

Available in a 24" x 24" tile with four colors available as quickship.

Due to the unique visual characteristics of modular carpets, pattern repeats and pattern run-off seams may appear more noticeable than in broadloom carpets. Such visual characteristics do not constitute a manufacturing defect, and as such, should be considered when selecting modular carpet and its installation. These photographs are representations of the installation for this modular product. Your modular installation may look different than these photos depending upon individual tile placement, lighting and overall space layout, including furnishings. Final tile placement and the resulting visual is thus the customer’s, and not EF Contract’s, responsibility.
